Contend Society Violation Contract.

Judge Hobson, of the Court of Appeals must pass upon the validity of the 1909 pooling contract of the Burley Tobacco Society. The case before him is that of J. T. Steen and J. M. Forrest, of Barren county, tobacco growers, against the Barren County Board of Control of the Burley Tobacco Society.

The board sued for a mandatory order of the Barren Circuit Court directing Steen and Forrest, poolers of their 1909 crop of tobacco to deliver their tobacco at the society's warehouse at Glasgow. The lower court granted that order and the growers' appeal asking that the mandatory order be dissolved.

The poolers contend that the society violated the pooling contract by selling some of the 1909 pooled tobacco on the brakes, and that they should be permitted to dispose of their crops. The society claims that there are thousands of pounds of pooled tobacco not delivered into its custody and that to permit the poolers to throw the undelivered pooled tobacco on the market would greatly depreciate the price of the crop in the 1909 pool. Judge Hobson called in Judge Settle to hear the case.

Shoots Youthful Assailant.

Mason Thomas, a blacksmith, shot and seriously wounded John Hawkins, young son of Henry Hawkins Friday night in Mt. Sterling. The shooting occurred in Burns' barber shop on East Main street and was done with a .38 calibre revolver.

It was said Hawkins was advancing on Thomas with a knife and cut him on the hand. Thomas drew his pistol and fired, the bullet striking Hawkins in the left arm and below the left nipple. Thomas was arrested.

Brothers Killed in Fight at Mt. Sterling.

In a difficulty in Mt. Sterling Thursday Deputy U. S. Marshal Clinton Allen and his brother, Walter Allen, were both shot and killed.

No one has been charged with the killing. There were no eye witnesses to the affair and there is no evidence upon which to make an arrest.

Soon after the killing, Special Policeman James Tipton and Michael Gibbons gave themselves up to the county authorities, but the county judge declined to hold them, saying there was no evidence that either man was implicated in the killing.

The Allen brothers had had trouble during the day with Gibbons and had made several trips to his place of business. On their last trip to that section of the city they were killed.

It is said the Allen brothers had been looking for trouble all evening and brought on the affair themselves.

Officer Tipton attempted to arrest Clinton Allen, who drew a pistol. Walter Allen came to his brother's assistance and also pulled out a pistol. Gibbons went to Tipton's assistance. In the general affray the two Allens were killed but just who did the killing is not clear.

Coroner Eastin held an inquest and the jury returned a verdict that the Allens "were killed by parties unknown."

Primary Ordered for May 27th.

At a meeting of the Democratic State Executive Committee held at the Seebach Hotel in Louisville Thursday night and by a vote of 88 to 4 a State primary was ordered to be held on May 27, 1911, to elect candidates for State offices to be voted for at the November election next year. The nomination for a Democratic candidate for United States Senator was not included in the call.

Throckmorton Not a Candidate.

Capt. J. W. Throckmorton, who has been mentioned as a possible candidate for the Lexington postoffice has announced that he is not in the race for the position. Capt. Throckmorton, who is well known in Paris, thinks he has been in the railroad business too long to give it up at this stage of his life for a government position.

Suit Against Whisky Makers.

Suit was filed in the Franklin Circuit Court Friday by City Attorney Frank M. Dailey for the city of Frankfort against the Kentucky Distilleries and Warehouse Company for back taxes on storage accounts amounting to \$116,297, with a 5 per cent penalty and 8 per cent interest, bringing the total amount sued for to \$130,000. The taxes sued for are for the year 1905, amounting to \$25,253; 1906, amounting to \$28,754; 1907, for \$30,625, and 1908 for \$30,673.

These are the same storage accounts upon which suit was filed by Franklin county several months ago, for which Judge Hiatt gave judgment in favor of the county.

It is contended that if the warehouse company owes taxes on its whisky to the county it also owes taxes to the city.

The Poultry Yard.

Keep the dust box supplied with nice clean dust, see that the grit box is never empty.

Keeping many breeds is a poor way to succeed. Get down to one or two varieties and give them the best of care.

If the hens were compelled to work a little harder these days for what grain they get, it would be a good thing for them.

As then we corn gets dry and hard it is safe to feed more than when it was soft and green. It is more easily digested and gives better results.

Never feed meat scraps that were made of rotten meat. Good pure feed is the only thing that ever ought to be fed to a fowl of any kind.

During winter the drinking vessels must be emptied each evening; it is much easier to do that than it is to break a solid cake of ice in them the next morning.

If it possibly can be done, clean up the droppings each day. It is work that will repay one. Never all this cleaning up to be delayed longer than a week.

Leaving the birds to fight their own battles against lice and other enemies may save some work, but it will cost some eggs; and eggs are worth money these days.

Do not delay any longer the job of culling out the poor stock. It is a mistake to keep even a single unprofitable fowl. Have the stock up in quality rather than in quantity.

If the hens are fed hot corn for supper, they will go to bed happy these cold winter nights. Feed it just as hot as they can eat it comfortably. Shell some in a baking pan and stir and heat it in the oven.

As the weather grows colder increase the supply of corn. It is a heating food. But never feed it alone. A good grain mixture for winter is two parts whole corn, one part each wheat and oats; all well mixed.

Many hens never know what it is to be comfortable from one end of the winter to the other, except on a day when it thaws. You can not expect hens to do as well under such conditions. To do well they must be comfortable.

The worst thing is to make poultry drink ice cold water; chills them clear through. They must warm that water before the work of digestion can go on again. Warm the water for them—not hot, but just comfortably warm.

Start up the trap nests. They are invaluable in pointing out the productive hens as well as the drones. They make it possible, by picking out the poor layers, to get more eggs from a fewer number of hens. That is economy—it saves feed and gives the workers more room.

It is a good rule to keep fowls indoors during rainy, snowy or windy weather. While the rains during the summer will do no harm to the fowls, the cold rains of winter are injurious. Exposing fowls to bad weather is but to invite sickness. Therefore, the more room in the hen house, the more contented will the fowls be when confined.

At this time of the year colds may develop in the flock. It is always best to nip these in the bud. In the first stages of a one-grain quinine pill each night for a week will be found effective. Remove the fowl to separate and dry quarters. Generally in a week the cold will have disappeared. Colds are caused by exposure, or by closely built houses, or by over crowded flocks, making the fowls sweat at night when on the roost and chill when they leave their perch the next morning. Have litter in the house, throwing the grain feed amongst it in the evening at feed time, and the fowls will start to scratching the moment they get off the roost at break of day. This exercising warms up the blood and puts the fowls in good condition to appreciate and thoroughly digest the morning mash.—From January Farm Journal.

State Poultry Show.

For the first time in the history of Kentucky a great State Poultry Show is to be held. By the efforts of Hon. M. C. Rankin, Commissioner of Agriculture, the Kentucky Poultry Association was formed some months since and it will hold its first annual show or poultry fair at Lexington on January 16 to 21 next. Premium list and catalogue will be ready for distribution January 1, and will be sent to anyone on application to Secretary Frank L. Smith, Lexington, Ky.

Kentucky's Tobacco Crop.

The Department of Agriculture at Washington made public its report on this year's tobacco crop. It shows the crop of the Burley District was 253,150,000 pounds, as against 244,800,000 last year, and was worth \$24,302,000 as against \$31,280,000 last year. The crop of the Fadenah district was worth \$5,803,000 this year as against \$4,040,000 last year, and a similar increase was noted in the Henderson district, the upper Green River district and the Clarksville and Hopkinsville districts.

Concerning the Burley crop the report says, "The cured product is inferior to last year's in size, color and body, being mostly medium and low grades, showing some houseburn and having a small per cent of fine tobacco. The yield per acre was 830 pounds and is 130 pounds less than that of the preceding crop and the December price is 9.6 cents a pound, against 13.4 in 1909."

South Trimble Has Cinch On Clerkship.

A report from Washington is to the effect that all other candidates for Clerk of the next House of Representatives have withdrawn or will withdraw in the next few days and leave South Trimble without opposition. The following from the Washington Herald of December 20th shows what is thought about his chances in the national Capital:

"It begins to look as if Hon. South Trimble, of Kentucky, will be clerk of the next House. Mr. Trimble, who was Speaker of the Kentucky Legislature during the celebrated Goebel trouble, was a member of the Fifty-seventh, Fifty-eighth and Fifty-ninth Congresses, and was Chairman Lloyd's chief lieutenant, with headquarters in Chicago, in the last two Congressional campaigns. A great many of the Democrats think his election to the clerkship of the next House will be a fitting tribute to the valuable services he rendered his party."

Belled Buzzard Deal.

The carcass of the famous belled buzzard was found on the roof of a haystack on the farm of J. T. Arthur in Nicholas county. Many years ago some one tied a small bell to a buzzard's neck with a leather strap and turned him loose. The buzzard has been seen in many parts of Central Kentucky in the past few years, though many people thought the story about the bell on his neck was a myth. The finding of the dead buzzard with the bell still on him corroborates the story.

Free Remedy For Weak Bowels

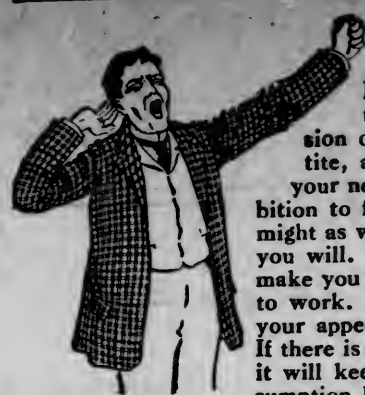

There are two forms of bodily cleanliness, the external and the internal. The one is for your pride in yourself; the other for your life and health. Both are important, but of vastly more importance in the long run is the internal cleanliness.

This is one point that all should watch about their body—the cleanliness of the bowels. Keep them clean and free from obstructions. To do this you must have one or two movements of the bowels each twenty-four hours. If your system does not do this naturally, in the process of eating and drinking, then you must obtain aid of some kind. After finding out that cathartics, salts and such things relieve you for a day, but bind you up worse than ever the next day, then try a simpler and more natural remedy like Dr. Caldwell's Syrup Pepsin.

For the skeptical the best way to begin is to send your name and address to Dr. Caldwell for a free sample bottle. Use it as directed and if it convinces you that a brief continuance of its use will relieve you permanently—that it will train the stomach and bowel muscles to then buy it of your druggist at fifty cents and one dollar a bottle, just as so many others are doing. They began with a sample bottle, then bought a fifty-cent bottle, and now, fully convinced of its merits, they buy the one dollar family use it down to the very youngest.

A brief use of this grand laxative tonic will cure constipation in its worst form, indigestion, liver trouble, sick headache, sour stomach and such ailments and keep you in continuous good health at a very small cost. Such is the experience of many families like that of Mrs. Oscar Saron, Tex., and hundreds of others that could be named.

Dr. Caldwell personally will be pleased to give you any medical advice you may desire for yourself or family pertaining to the stomach, liver or bowels absolutely free of charge. Explain your case in a letter and he will reply to you in detail. For the free sample simply send your name and address on a postal card or otherwise. For either request the doctor's address is Dr. W. B. Caldwell, R. 500 Caldwell building, Monticello, Ill.

Do You Feel This Way?

Do you feel all tired out? Do you sometimes think you just can't work away at your profession or trade any longer? Do you have a poor appetite, and lay awake at nights unable to sleep? Are your nerves all gone, and your stomach too? Has ambition to forge ahead in the world left you? If so, you might as well put a stop to your misery. You can do it if you will. Dr. Pierce's Golden Medical Discovery will make you a different individual. It will set your lazy liver to work. It will set things right in your stomach, and your appetite will come back. It will purify your blood. If there is any tendency in your family toward consumption, it will keep that dread destroyer away. Even after consumption has almost gained a foothold in the form of a lingering cough, bronchitis, or bleeding at the lungs, it will bring about a cure in 98 per cent. of all cases. It is a remedy prepared by Dr. R. V. Pierce, of Buffalo, N. Y., whose advice is given free to all who wish to write him. His great success has come from his wide experience and varied practice. Don't be wheedled by a penny-grabbing dealer into taking inferior substitutes for Dr. Pierce's medicines, recommended to be "just as good." Dr. Pierce's medicines are of known composition. Their every ingredient printed on their wrappers. Made from roots without alcohol. Contain no habit-forming drugs. World's Dispensary Medical Association, Buffalo, N. Y.

All the talking we can do in favor of FOX RIDGE will not convince you of its superior quality half so rapidly as a sample load.

CHICAGO NEWS LETTER.

Chicago, December 24—Tables for New Year's Eve in Chicago cafes, including the fifteen hundred in the new College Inn which will reopen Christmas week in the new Hotel Sherman, already are taken, which passages a celebration surpassing any witnessed since New Year's eve was seized upon by many thousands of people as an occasion to "cut loose." The estimate is that not less than one hundred and fifty thousand dollars will be spent that night, the estimate being based on the fact that the "classy" cafe and hotel dining rooms will seat seven thousand persons and the expenditure of fifteen dollars per person and then some. Last year the average was ten dollars per person but champagne is higher, and bubble water is opened that night as on no other night of the year. The new duty makes the price four dollars and fifty cents instead of four dollars. Chicago's thirst is growing; thirty-five thousand cases is the present record of champagne per year, and a great part of it disappears between 10 p. m., December 31 and 4 o'clock the next morning. The estimated fifteen dollars per person is made up of ten dollars for wines and other liquid refreshments—including water—two dollars and fifty cents for dinner and two dollars and fifty cents for incidentals. In some cases the two dollars and fifty cents will not cover the incidentals. In fact it may take the entire fifteen dollars for that purpose. But there will be some economical spirits who will keep the average down to fifteen dollars per. The addition of the College Inn to the possible scenes of celebration is the big news of the event for it will be the largest grill room in the country and the original of the many "college inns" in the country. At the Hotel La Salle there will be less restraint felt than last year when the hotel was new, and those who watched the departure of the old and the coming of the new years in its dining rooms, felt a trifle strange. The same may be said of the Blackstone. It has had a year in which to get better acquainted with its patrons, and it will shelter at least twelve hundred and fifty in its watch party. Then there are the spacious dining rooms of the Congress and Annex, the Auditorium, the Stratford, the Wellington, DeJonghe's, the Bismarck, the Union, the Brevort, besides such popular cafes as Vogel-sang's, the Edelweiss, the Hofbrau, Stillson's, the States, and Rector's.

The maritime cloth of Uncle Sam again was complained of by Chicago shippers to Alaska, who made odious comparison between the perils of the Alaska coast and the safeguards which the Dominion government will add to the "inside route." The wreck of the Olympia off Valdez was used as a case in point, in the odious comparisons made. On the authority of Premier Laurier it is said that fifteen new lights and other necessary equipment will be installed along the inside route from Vancouver to Prince Rupert, the terminus of the Grand Trunk Pacific Railway. Sir Wilfrid is among the many notables who in recent months have ventured north from Vancouver to the new Pacific port which because of the reduced circumference of the globe near the poles is said to be several hundred miles nearer to the Atlantic and to the Orient than any other port on the Pacific. President Hays of the national transcontinental in recent months also has gone to the Northern British Columbia where the railway and mine activities have created a stir quite new to the vast solitudes which were undisturbed by man up to a few years ago. On Sir Wilfrid's return it was made known that he would have immediate action on the matter of the necessary protection to vessels on those northern waters. It was quite a season of excitement when the notables inspected Prince Rupert; one party passing so close to the other near Queen Charlotte Sound that President Hays and Sir Wilfrid waved to one another. It is said that Prince Rupert Harbor naturally is the best one on the Pacific Coast, being large, landlocked with deep water and no shoals or obstructions to navigation and no strong tidal current. A great grain elevator which is to be built there by the government is significant of the changes which are to take place in the interior back of Prince Rupert which only a few years ago was unmapped and practically unknown except by trappers and mine prospectors.

The salesmen for the "get-rich-quick" concerns and the mushroom insurance companies, for whom Chicago has been headquarters while they claimed New York as home, have suffered a rude jolt from the crimps put into the business of the concerns which they have helped to "float." They are already beginning to mourn for the "good old days" and those days certainly netted them handsomely, one thousand dollars a week being nothing unusual for the smoothest of the tribe. The sums they made and the sums they spent, most of them spent at once, have not been generally realized. But now the legitimate concerns which have something substantial to sell or conservative commissions are met by the fact that these salesmen, the geniuses of the salesman's craft, have been getting "abnormal pay." They are spoiled. The secretary of a big and substantial concern said: "As for a force of salesmen, I find that is a mighty hard thing to get. The man who walks and talks, who heart-to-hearts, his winning way among prospective subscribers, who puts the pen into their weakened digits at the apophygical moment, and says irresistibly 'Sign right here'—he is the man who does the work. Yet he is few and far between and mighty hard to find. Why? The oil man and the mining man, the kind of men the postal people are now chasing so hard, they paid any old commission up to 80 and 10 and 10 and 10 per cent. they are why, at least in part, I can't pay 25 per cent, but that makes a fine living for a man who has not earned 80."

Large Stone Rolls Down Mountain.

A large stone, said to weigh nearly fifty tons, broke loose from a crevice just under the pinnacle in the Cumberland mountains, overhanging the small town of Cumberland Gap, a few nights ago and rolled about 1,500 feet, cutting a swath in the timber in its path twenty feet wide, tearing a gap in the military pike that leads across Cumberland Gap, and missing a dwelling on the hillside about fifty yards. YERKES & KENNEY.

Printer's Error Costly.

A printer's error in conjunction with a strict ruling of the new law governing the framing of railway freight rates is costing one of the railroads running into Denver, Col., a tidy sum of money, in that it must carry a certain class of business from Denver to a Texas point at 14 cents per hundred pounds instead of at the \$1.14 rates which it intended to charge. The printer dropped out the \$1 in printing the road's tariffs. Under a clause of the railway rate law, no change can be made in the printed tariff for thirty days.

He was the uncle of Judge W. H. Lafferty, dean of the Law School of Kentucky State University, at Lexington. Mr. Henry suffered a stroke of paralysis a short time ago, and was in ill health, which, it is believed, caused him to end his life.

Reduced Prices to Continue.

Notwithstanding the shopping district of the city was crowded Saturday on the eve of Christmas day, many people from the country were unable to get to town on account of the bad condition of the roads and called up the furniture store of J. T. Hinton to know if his reduced prices would obtain this week.

Mr. Hinton was reluctant to discount the sacrifice prices at which people who crowded his store Saturday were enabled to buy and desires to announce that he will offer low prices until January 1, 1911, that no one may be disappointed.

Nothing is reserved and although nearly every line of the big stock shows what effect low prices will do, there are yet many choice bargain opportunities. It just happened that Mr. Hinton bought liberally and he now proposes to make a clean sweep before the old year is rung out and the new in.

Fireworks Blaze at Richmond.

Fire, originating from a spark which fell into the fireworks which lined the entire front of the building occupied by the Cut Rate Grocery at Richmond Friday night, damaged the building and its contents to the extent of several thousand dollars. Mr. D. C. Wiggins, who was formerly engaged in the theatrical business in this city, is proprietor of the store and also owns several other large stores in that city. Several persons in the store when the fire broke out made their exit by the rear door, as the blaze cut off escape in the front. The work of the firemen was menaced by the high explosives in the building.

John Jones Shot to Death in Scott.

John Jones, a fugitive from justice, charged with shooting Sam Custard, a negro, at the livery stable of Martin Bros., in this city about three weeks ago, was shot and killed at Finnell, Scott county, twelve miles north of Georgetown, Friday night at 11 o'clock, by Claude Griggs, while the two men were attending a dance at the home of David Elliott. Saturday morning Griggs went to Georgetown and gave himself up to the authorities. He will plead self defense. The trouble is said to have been caused by a quarrel over a girl. Jones' body was taken to Georgetown where it was prepared for burial and sent to the home of his relatives in Leesburg, Harrison county.

Since shooting and wounding Custard in this city, Jones has been a fugitive from justice. Escaping immediately after the shooting Jones succeeded in keeping in hiding and all efforts of the authorities here to obtain a clew that would lead to his capture has been without result.

Several years ago Jones shot a man by the name of Burrell an alleged horse thief, at Georgetown, but Burrell recovered and was later killed by another man. Jones is said to have borne a bad reputation.

TUBULAR BELL CHIME.

The perfect movement insures correctness of time; the solid oak or mahogany case, with classic lines, conforms to good taste; and the melodious tubular chimes, sounding the hours and quarters after the peals of Whittington or Westminster, serve as a pleasing reminder of the passing hour. The fifty styles give ample choice in design, size, and price, all showing the moon's phases in the dial arch. We are sales agents for The Herschede Hall Clock Co. of this city, and will send illustrated catalog on request.

DAYS OF DIZZINESS

Come To Hundreds of Paris People.

There are days of dizziness; Spells of headache, sideache, backache; Sometimes rheumatic pains; Often urinary disorders. All tell you plainly the kidneys are sick.

Doan's Kidney Pills cure all kidney ills.

Can Paris residents doubt this statement?

George Aycock, contractor, Murray, Ky., says: "For two years my kidneys were disordered, the secretions from these organs containing a sediment and being to frequent in passage. I was also annoyed by headaches, dizzy spells and a blurring of my sight and when I arose in the morning, I felt languid and tired. It was finally my good fortune to learn of Doan's Kidney Pills and I procured a box. I received relief through their use in a short time. I am pleased to recommend Doan's Kidney Pills to other kidney sufferers."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Lexington Opera House—Christmas Week.

MADAME X.

Mr. Henry Savage will present at the Lexington Opera House, December 28th and 29th, "Madame X," Bisson's famous drama of mother-love. It is a play credited with having made a more lasting impression and created a greater sensation than any theatrical attraction of the present generation. That this celebrated play electrified even blazed Paris for over a year, is now well-known. Expert critics in New York, Paris, London and other world cities, where "Madame X" has been scoring so great a triumph, unite in the verdict that it is the most powerful emotional drama within memory. They have not hesitated to say that this play holds in the hearts of the present generation of play-goers a place comparable to that held in years gone by, by such famous works as "Article Forty-Seven," "Camille," or the wonderful "Sardou" tetralogy. Mr. Savage has prepared a lavish production for the play and a notable cast of players.

THE MERRY WIDOW.

"The Merry Widow" comes to the Lexington Opera House Friday, December 30th, with its irresistible whirl of beautiful girls, enchanting music and brilliant costumes. For this engagement Henry W. Savage offers what doubtless will be generally accepted as the best all-round company which he has ever equipped for the presentation of this wondrously popular Viennese Opera. Mr. Savage's own special orchestra, in addition to the Royal Hungarian Orchestra, and a magnificent scenic production will accompany this organization.

ANNUAL CLEARANCE SALE

Of Women's and Children's Apparel
Opens Tuesday Morning, December 27th, at 9 O'Clock.

Enormous Saving on Suits, Coats, Skirts, Waists, Dresses and Furs.

To-day we announce an event of widespread importance—a huge underprice sale which will effect our entire stock of Women's, Misses and Children's Coats, Suits, Skirts, Waists, Dresses and Furs—a sale which will afford matchless saving on apparel of the highest quality.

Without exception or reservation every Suit and Fur Coat in the house has been subject to a reduction of 50 per cent. or more.

The heavy economies on staple, standard clothing thus afforded will be instantly apparent. This is not a sale of job lots, or special purchases, but a genuine underpricing of regular stock goods. The fact that our garment and fur sections have the enviable reputation of handling only clothing of acknowledged merit adds emphasis to the powerful appeal which low prices must make to every thrifty buyer.

We invite you now to the most important apparel sale of the season.

Hobble Skirt Doomed.

The hobble skirt, after having caused heart pangs for more than a year, stood trial before a jury of critical, sharp-eyed manufacturers in Chicago last week, and lost. The ghost of the abbreviated garment takes its place with the skeleton of the hoopskirt and the bustle. It was at the first session of the National Association of Cloak, Suit and Skirt Makers of North America, which held its annual convention at the La Salle Hotel in that city. Here styles are fixed. As a result, in the place of the hobble the equally sensational "aeroplane skirt" has risen. The spring of 1911 will see a return to grace and freedom of movement and the athletic girl with her long, swinging stride. The garment manufacturers decree that the skirt must have an unusual fullness at the bottom. Only when seen in action can it be fully appreciated. From top to bottom it is one series of straight lines. To find the waist is a baffling mystery. Concealed in the simple lines of the apparently plain skirt are innumerable invisible plaits, and when the wearer walks the similarity to the aeroplane is strikingly evident. Yards of cloth spread out in every direction in lateral planes, while the skirt itself is sufficiently short to give an occasional glimpse of a dainty ankle. More than one hundred manufacturers were in attendance at the convention, representing 35 of the largest manufacturing concerns in the West and Canada.

Wants to Help Some One.

For thirty years J. F. Boyer of Fertile, Mo., needed help and couldn't find it. That's why he wants to help someone now. Suffering so long himself he feels for all distress from backache, nervousness, loss of appetite, lassitude and kidney disorders. He shows that Electric Bitters work wonders for such troubles. "Five bottles," he writes, "wholly cured me and now I am well and hearty." It's also positively guaranteed for liver trouble, dyspepsia, blood disorders, female complaints and malaria. Try them. 50c at Oberdorfer's.

Two Hundred Dollars a Day for Taxes.

The seven million dollar Fifth avenue home of ex-Senator William A. Clark, of Montana, was completed a short time ago, after eight years of work, and will be occupied early in the new year. It is said to be the costliest residence ever built in America. The taxes assessed on it by New York City amount to more than \$200 a day. The mansion contains 121 rooms, 31 baths and four picture galleries. No building in the world, according to experts who have inspected the interior, carries so much bronze as has been worked into this mansion. [Although the best architects and decorators in this country were employed, Senator Clark himself designed much of the interior as well as the exterior of the mansion. The building contains one of the largest pipe organs in the world which was installed at a cost of three hundred thousand dollars. There are two million dollars worth of pictures and three hundred thousand dollars worth of rugs.]

Banks On Sure Thing Now.

"I'll never be without Dr. King's New Life Pills again," writes A. Schungeck, 647 Elm street, Buffalo, N. Y. "They cured me of chronic constipation when all others failed." Unequalled for biliousness, jaundice, indigestion, headache, chills, malaria and debility. 25c at Oberdorfer's.

Competition That Counted.

The first direct cable between Argentina and Europe was opened a short time ago. The other cable company at once reduced the rates to the United States by 15 cents a word.

Saved From Awful Death.

How an appalling calamity in his family was prevented is told by A. D. McDonald of Fayetteville, N. C. R. F. D. No. 8. "My sister had consumption," he writes, "she was very thin and pale, had no appetite and seemed to grow weaker ever day, as all remedies failed, till Dr. King's New Discovery was tried, and so completely cured her, that she has not been troubled with a cough since. Its the best medicine I ever saw or heard of." For coughs, colds, la-grippe, asthma, croup, hemorrhage, all bronchial trouble it has no equal. 50c. and \$1.00. Trial bottle free. Guaranteed by Oberdorfer.

Girls Pray for a Rain of Husbands.

Eighteen maidens, working in a Bronx factory in New York City, and whom the correspondent represents as young and beautiful, have appealed to the editor of the Seattle, Wash., Times to send them eighteen of Washington's male matrimonial possibilities. The communication, after rather formally setting forth the main proposition, says:

"Not one, but eighteen. Oh, Lord,

send us thou manna in the shape of a man, yet unto forty days let it rain nothing but husbands. Lo, Editor dear, if it is not asking too much, we would be happy if you could do this for us." The letter is signed C. S. G., care of Mrs. F. Noett, 1393 Fulton avenue, Bronx, New York City.
